TECHNOLOGIES OF EVOLUTION

Body Map.

Muscle tension is one of the important factors which affects the state of organs and systems, along with other factors.

Removing it, we remove a significant part of the load from this system.

These stresses are dealt with in body-oriented therapy.

Idea: a person has muscle tensions - "shells", and behind them are some kind of emotional tensions, stresses. These stresses can be corrected. Various methods are used to correct muscle shells, for example, massage, recognition, body therapy, etc.

The classical theory distinguishes 7 main muscle blocks that are fixed around the organs and they can lead to disruption of these systems.

The accumulated muscle tension affects the state of organs and systems.

For example, poor eyesight is often associated with muscle tension, poor heart function is also associated with accumulated stresses.

The presence of muscle tension can be one of the causes of the problems. There may be several reasons. For example, almost all young children who wear glasses at an early age (back in school) have a lot of accumulated physical stress around their eyes, spasm.

There are some statistics where it is noticed at what tension the problems are almost guaranteed. This factor is enough for the problems to start.

In other cases, the factor of muscle tension will be one of the factors that affects the functioning of organs and systems along with mental factors, etc.

Thus, we are testing muscle tension in organs. And when we remove these tensions, subtle bodies usually straighten. This happens in half a year or a year. This is a good technology to heal the body in this area. It does not work very fast, but it is a very important process that affects health.

Cleansing muscle tension, from our point of view, is a wonderful prophylactic. Because there is always an exact connection - strong muscle tension corresponds to problems in these areas.

This is good as prevention, but is not suitable for the treatment of acute diseases. If your hair suddenly starts to fall out, then the reason is not muscle tension but other factors: for example, poisonous shampoo, synthetic pillow. And removing muscle tension will not lead to a sharp recovery. You need to look for the cause of the disease.

TECHNOLOGIES OF EVOLUTION

A. The main parameters

No	Parameter	Number of tension lines	Total weight / force / tension	Note
A huge amount of muscles of various types are concentrated on the head. Most emotions are reflected not only in the body, but on the face.				
1	Eye strain	4 tension lines	6 units	It can affect the quality of vision and the work of the meridian of the bladder, the meridian of the gallbladder, the meridian of the stomach.
2	Eyelids	1 line	2 units	Cosmetic moments. Affects wrinkles on the eyelids, bald eyelashes.
3	Forehead	1 line	4 units	Affects early forehead wrinkles (from 5 units: strong effect)
4	Eyebrows	6 lines	8 units	Affects the wrinkles in the corners of the eyes and the vertical wrinkles between the eyebrows, the meridians of the gallbladder (outer corner of the eyes), the meridian of the triple heater (outer edge of the eyebrow).
5	Hair	5 lines	21 units	It can affect hair loss.
6	Ears	1 line	5 units	Affects the work of hearing and teeth, lymphatic system.
7	Lower jaw	1 line	4 units	Affects the teeth, oral cavity.
8	Upper jaw	1 line	6 units	
9	Circular muscle of the mouth (region of the lips)	1 line	6 units	Tension warps fine structures and affects tissues in this area: muscle skin, bones, teeth.
10	Cheekbone area	1 line	8 units	
11	Skew of facial muscles (grin on one side)	1 line	4 units	Affects the asymmetry of the face on the left side, present in 60% of people. With large strains of skew muscles 30-40 units there is a "cleft lip".
12	Angular jaw muscles	2 lines	8 units	Affects tissues in this area, including diseases of the corner

TECHNOLOGIES OF EVOLUTION

				teeth.
--	--	--	--	--------

Discount. When ordering all 6 parameters associated with the teeth (paragraphs 7-12), a total discount of 50%.

13	Palate	1 line	5 units	Affects the area of the palate, head, sore throat, colds, etc.
14	Brain	1 line	4 units	May set disturbances in general hormonal regulation. Greatly affects the general condition of a person.
15	Occipital region	5 lines	7 units	May affect blood pressure, headaches and vascular microspasm.
16	Tongue-larynx	2 lines	6 units	Partially affects teeth, tonsillitis, colds, diction.
17	Thyroid	1 line	18 units	It affects the functioning of the thyroid gland, problems arise during load of 5 units.
18	Base of the neck	6 lines	9 units	Responsible for the work of Vishuddha, partly for the work of the thyroid gland, for mutual understanding.
19	Shoulder girdle	1 line	5 units	Shoulder muscle area.

20.1	Hands, elbows, fingers	6 lines	9 units	It affects the condition of the hands (muscles, joints, skin, subcutaneous fat).
20.2	Little finger tensions	It includes	It includes	It affects the heart meridian.
20.3	Index finger tensions	It includes	It includes	It affects intestinal meridians.
20.4	Ring finger tensions	It includes	It includes	It affects the meridians.

Note. Hand stresses and hand meridians (paragraphs 18.1, 18.2, 18.3, 18.4) are cleaned together for one price.

21	Sternum - thymus gland, lungs.	1 line	5 units	It affects the functioning of the lungs and thymus gland, immunity and colds. Often this is accompanied by allergies.
22	Cardiac muscle	3 lines	6 units	Affects the work of the heart.
23	Liver	4 lines	8 units	Affects the liver / annoyance /
24	Gallbladder	2 lines	5 units	Affects the work of the gallbladder

TECHNOLOGIES OF EVOLUTION

	heart muscles /			compensate for these stresses.
36	Pancreas	3 lines	4 units	Zone of problems - 6 units.
37	The stresses in the region of the anal sphincter	3 lines	9 units	Stimulates hemorrhoids. Critical tension from 5 units.

The note. Emotional stress is accompanied by muscle tension. Stresses form stress chains. These stress chains are grouped by type of emotional reaction. When we write 5 lines of 7 units in the head zone, this means that there are 5 chains of emotional stress in this zone. Behind each chain there are ancient powerful stresses.

QUESTION: What does 1 line or 4 tension lines in the Body Map mean?

ANSWER: We group muscle tension into some zones where the reactions of the same type exist. We group stress chains according to separate principles, groups, which are represented at different points on the body map.

For example: "Swadhisthana 4 chains" - this is most often associated with sexual muscle tension. The most difficult is the head area, where a huge number of different muscles and different stresses are associated with different processes. And emotions there are also somehow reflected.

We just note for ourselves what it will be necessary to work with, how much tasks are worth.

When testing, isolating the number of tension lines is easier to determine the total load. For you, this may have some kind of reference character. At work, we clear every single line.

We can clearly say one thing - physical stress affects the body.

For example, people who have strong muscle tension in the jaw have crooked teeth, etc.

Correcting these distortions, we do not know how fast the work of organs and systems will be aligned. But the solution to this question is important for the proper functioning of the body.

TECHNOLOGIES OF EVOLUTION

QUESTIONS AND ANSWERS

Question: In the Body Map, what is the critical value of muscle tension? Please give some gradation for a possible assessment of the degree of criticality.

ANSWER: For different organs in different ways. For example, for the heart starting from 10 units there will be obvious problems, and for hair from 20 units. Mild alopecia will be psychologically critical for someone - but for someone, baldness is normal.

But in general, we can say that if the level of muscle tension in organs is higher than 5 units, then this will somehow affect the functioning of these organs. If muscle tension is higher than 5 points and there are problems in this area, it is better to relieve muscle tension.

Muscle Tension Cleansing:

Characteristics of the main muscle tensions (in the Body Map).

There are some statistics where it is noticed at what tension the problems are almost guaranteed. This factor is enough for the problems to start.

In other cases, the factor of muscle tension will be one of the factors that affects the functioning of organs and systems along with mental factors, etc.

- Forehead and eyelids are significant wrinkles in women at a relatively young age.

Eyelids - this is 4.5 units, forehead - 5 units.

For example, wrinkles on the forehead of 8 units - at the age of 25 for a girl there were already several noticeable forehead wrinkles.

- Eyes - 13 units in 18 years - already glasses.

If more, then there is a need for glasses.

If 18 units of tension, then the third grade is already glasses.

- Ears - 6 units - problems arise from an early age.

A person is already starting to talk about problems.

Even at 5 years old they already say that the ears are their weak zones.

- Angular teeth - 8 units - tooth problems arise.

- Lower, upper teeth - 10 units - problems arise.

- Grin - 20 units - cleft lip.

WORLD HERITAGE INSTITUTE

Center for the accelerated development
www.PsiFree.org

100% results guaranteed.
We refund 100% of your payment if you are not satisfied!

TECHNOLOGIES OF EVOLUTION

- Brain - from 9 units - this is an unbalanced hormonal state. May give some nervousness, sudden changes in conditions, etc.
- Larynx - from 10 units, throat problems, sore throats begin.
- Chest - from 9 units allergic reactions and pulmonary diseases begin. Complex diseases - starting with 15 stress units.
- Heart - from 15 units, a tendency to heart disease, heart attacks.
- Liver - problems with tensions from 12 units.
- Gall bladder - problems with tensions from 13 units.
- Stomach - problems with tensions from 12 units.
- Spleen - problems with tensions from 9 units.
- Intestine - problems with tensions from 10 units.
- Kidneys - problems with tensions from 14 units.
- Adrenal glands - problems with tensions from 8 units.

- Svadhistana - problems of various types arise with tensions from 11 units.
- Spine - at tensions from 15 units there will be scoliosis of various types.

- Prostate - problems with tensions from 9 units.

Note:

Prostate problems are almost always associated with

1) a parameter of muscle tension and

2) the processing parameter of the prostate gland as a system (sexual energies), When the parameters of the prostate gland are below 55%, this is a problem.

Prostate function is measured in the Energy Map.

NOTE:

The person says he has problems with this body. We can test the tension level. And if physical stress is more than 2 units, then the use of this technology for clearing body stress can affect this body and improve its work. If less, it will not.

The reasons for the difficulties can be several energy damage. Lack of certain substances, improper lifestyle and other factors. Body-oriented psychology works with muscle tensions that are around the systems. Removing stresses - we improve the system.

If the tension is not tested, you need to look for other factors.

TECHNOLOGIES OF EVOLUTION

VOICE TENSION

B. Tensions that affect the voice apparatus - distort the voice:

1	Tensions that raise the voice up (make it childish)	1 line	4 units	Tensions that change the voice
	Tensions that affect the voice - compresses (constriction in voice)	1 line	2 units	A choked voice is a pinched voice.
	Tensions that divert the throat inward (depressed)	1 line	2 units	Depressed voice - a person speaks to himself (inside)
	Tensions from the Higher planes blocking the voice	0 line 1 line	0 units / up / 4 units / conciseness /	

In voice: the next force, a strong shift.

- 1 unit - poorly developed
- 2 units - medium significance
- 3 units - constriction. Strong shift.

QUESTION: What does “Voice Compression” mean in the Body Map?

ANSWER: Sometimes there are muscle clamps of the vocal apparatus, which affect the clarity of the voice, the way the voice sounds. It can also affect diction and pronunciation.

For example, some of the singers have Voice Lock values:

- **Poplavsky** - 2 tension lines, signal strength - 20 units.

It’s hard for him to sing, he can only speak.

- **Decl** - 3 tension lines, 12-15 units.
- **Timati** - 3 tension lines, 9 units
- **Ivanushka (red)** - 3 lines, 7 units
- **Semyon Slepakov** - 3 lines, 9 units

Tensioned artists in this zone speak more than sing.

Can be cleaned.

TECHNOLOGIES OF EVOLUTION

Correction is done quickly, within a week. Correction is carried out remotely. No surgery required.
100% result guaranteed.

If you are unhappy, we will refund your full payment amount.

NOTE: People usually have several clips at the same time.

1. High stressful voice: a person speaks in an inflated, childish voice.

For example, Berezovsky, a billionaire, his voice does not sound very serious, but he is a very serious person.

Berezovsky's:

- up 4 units
- depression 3 units
- voice compression 2 units

+3 voice blocking from higher Plans.

Zhirinovsky also has a high shrill voice.

He has stresses:

- up 4 units
- depression 1 unit
- voice compression 1 unit

+3 voice blocking from higher Plans.

2. Pushed voice:

A man, as it were, says to himself. It turns out the smack of "muttering."

The Russian Billionaire Mikhail Prokhorov has a voice indent of 3 units, and accordingly his voice is not very full.

This is evident from his interview. It is difficult for him to speak from the rostrum in public.

The voice goes badly forward.

Center for the accelerated development
www.PsiFree.org

100% results guaranteed.
We refund 100% of your payment if you are not satisfied!

TECHNOLOGIES OF EVOLUTION

3. Compressed voice:

This is when something squeezes the voice and a person speaks as though through some kind of barrier.

Example: Ukrainian singer Poplavsky.

He has a voice compress of 4 units.

It's hard for him to sing. He does not sing songs, but speaks.

Singer Glucose has a voice compress of 3.

She also does not sing, but speaks the words.

Each person has all three signals in varying degrees.

At low tensions, this is overcome by training.

If all these parameters are low, then the voice is sonorous beautiful.

Special offer:

- Cleaning specified muscle tension of the vocal apparatus that deforms the voice (lift up, squeeze, press): 100 ye (75% discount).

100% results guaranteed.
 We refund 100% of your payment if you are not satisfied!

TECHNOLOGIES OF EVOLUTION

V. Tensions that dampen the voice affect the fullness and strength of the voice.

36	Stresses that affect voice power	3 lines	8 units	Powerful voice - if the tension is less than 3 units, Average 3-6 units.
----	---	---------	----------------	--

NOTE: We started testing the new complex "Voice Saturation".

For professional artists, when they deliver a speech, subtle bodies begin to move forward. Due to this, the effect of "speech saturation" appears. Usually this movement is blocked by complexes and muscle tension (both from and from the Higher Plans). You can remove this tension and then the speech will become more saturated.

NOTE: Usually people who have strong tensions that disrupt the fullness of their voices engage in performances where a voice is not required (mimes, actors).

For example,
 The leader of the Mask Show group, George Deliev, has a tension of 8 units.
 French Mime Marcel Marceau - has a tension of 10 units.
 Strong actors with such tensions compensate for the lack of voice with facial expressions.

Typically, artists and politicians, this figure is close to zero. With the presence of such stresses, it is difficult to speak to the public.

TECHNOLOGIES OF EVOLUTION

E. Chakras through which individual muscle tension is formed:

	Muladhara	1 line	3 units	
	Svadhithana:	1 line	5 units	
	Manipura	2 lines	4 units	These stresses distort and inhibit Manipura work. 10 units of tension can inhibit 25 percent Manipura activity.
	Anahata	1 line	2 units	Emotional sensuality
	Vishuddha Vishuddha area, base of the neck	1 line	4 units	May affect diction and voice quality, thyroid
	Sahasrara	1 line	3 units	

Special offer:

Cleaning muscle tension in the Chakra Channel / for all chakras /: (60% discount).

Note: Muscular tension of Manipura and Animal of Strength.

The muscle tension that is located on the chakra of Manipura can significantly reduce the activity of the animal of strength channel.

For example, with a tension of 7 units, the activity of the Animal of Strength Channel can be reduced by 30%. Residual muscle tension (thought forms) located in the areas of the chakras can reduce the performance of the chakras in the following way: 2 units of tension reduce the chakra activity by 10%.

Muscle tensions on chakras are tested in the Body Map.

QUESTION: Does cleansing tensions on chakras affect tension on organs?

A: Residual muscle tension in the chakras is a subtle structure that creates a twisting effect in the frequency of 1-2-3 of the body of Vishuddha. Disturb the work of this zone. Affect not directly, but indirectly. This is one of the very serious factors.

We remove muscle tension, the remains of signals that disrupt the work in these areas. We try to remove 90% of the signals.

These tensions twist the thin bodies.

WORLD HERITAGE INSTITUTE

Center for the accelerated development
www.PsiFree.org

We refund 100% of your payment if you are not satisfied!

TECHNOLOGIES OF EVOLUTION

When we remove the stress - this stabilizes the zone and improves performance.

Note.

Very powerful tensions accumulate in the Swadhistana channel, therefore, when cleaning the muscular tensions of the Swadhistana chakra, a lot of heavy energies and energy debris are released. Therefore, when there is work on cleaning muscle tension during the week 2 times a day for 20-30 seconds, it is advisable to do meditation on magma. Imagine that you are standing on red magma and heavy energies go into magma - so that heavy energies go out of the body.

These states themselves will pass after some time, but in order not to have heavy feelings, it is advisable to do this practice yourself.

The same exercise is recommended for cleaning any complexes. Also Mandala "Activating the lower connection" will be useful for this task.

Review: Cleansing muscle tension on the chakras / Anton

Thank you, I feel easier. During the day there was a feeling as if I had drunk a bit, tuned in to Magma and slightly let out.

Now the condition is normal. The general inner mood has changed a bit, more calm and as if I were slightly aligned on some musical tuning fork. I think this will add evenness to relationships with people and there will be less worry. Thank you, we will watch.

Review: Cleansing muscle tension on the chakras / Elena

In physics, pleasant changes have occurred and I have become tougher, my voice has even changed, people say it's rude)) but they don't even try to joke in society.

Son also became very bossy! In society it became easier for him.

The husband has a change in behavior, rigidity. More masculine features appeared.

FREQUENTLY ASKED QUESTIONS

What is the effect of voltage?

QUESTION: How do the residual voltage energy to the work of organs and systems (Listed in the map of the body)?

ANSWER: When a person is nervous - he tightens. Usually this is accompanied by muscle tension of different muscle groups.

Any emotion, conflict, any stress in my life accompanied by muscle tension. Is a nerve signal from the brain to the muscles - the muscles appear nervous tension, which stimulate muscle napryazheniya. Plyus is entangled energies of chakr. T.e. We are dealing with the fact that the quarrel took place, and muscle tension may remain. It took 100 years, people died, but these structures can not decay. They remain as energy education, and have a spiral structure. And in each life form a chain of the same type of stress.

Since these chains represent a helical torsion energy yarns strongly tensed, each having the same type of reaction life - produced powerful energy formations that can twist slim body. They form a thin rotational energy load on anahatas body Vishuddhi, Adjna - respectively is disbalansirovka energy and suffers organ. T.e. One of the important parameters (apart from the mental trauma, which are Vytok) - these energy stresses that do not destroy, but it distorts the work of the bodies and sistem. Eti effects were just statistically detected.

20 people were taken from the visually impaired at school, and we have tried to identify what are the main factors of the same type for all these people. It turned out that the residual physical stress. And just as with other sistemami. VOPROS: We are talking primarily about the muscle tension in the eyes, or the residual voltages of energy around the face? A: All the parameters that are tested in the map of the body - are associated with the residual energy of muscular tension. And they all have an impact on the body. Voltage power option determines how much energy is unbalanced in this oblasti. VOPROS: Ie if for the body muscle tension 8 units and zonal voltage 15 units, it is best to start with zonal stress response:..? Both indicates a heavy load on the body. Those. it is desirable to start with those loads that are maximal. Even if the problem is on the physical plane has not yet manifested, it is better to prevent it. First and foremost it is worth paying attention to the muscle tension in the vicinity of important organov. No if the problem is already there, and for a long time, you need to consider that we only run a reverse process, which will be for several years to move in the opposite direction. In Tibetan medicine it is believed that much disease there is a need to count on the same period of convalescence.

QUESTION: On the map of muscular stress: I have given a small level of eye strain, but there are problems with vision. At the same time, my friend said high voltage on the eyes but the vision norm. How so?

ANSWER: The stresses in the body do not necessarily indicate problems in the organs. They are only one factor affecting the performance organizma. Mogut systems have difficulty in systems without muscular tension.

On the other hand, the body can keep the load on the system and the voltage will not occur even when the muscle napryazheniya. Kak high level at the physical level indicated in the map, we recommend to clean only the muscle blocks, stresses that are relevant to you. If they are not relevant, is not required to clean. The man says I have a problem with this organom. My can test the level of physical exertion if napryazheniya. I 3 units or more, the use of technologies of clearing of bodily stress can affect the body and improve its performance. If less - will not be affected. Because of the complexity in the systems can be multiple: energy damage, lack of any substance, emotional and muscle tension, unhealthy lifestyle and other faktory. Telesno-oriented psychology works with muscle tension, that around systems. Removing the voltage, we work to improve the system. If the voltage is not tested to look for other factors.

TECHNOLOGIES OF EVOLUTION

QUESTION: Is the reason the clip is removed when cleaning the muscle stress? Or without elaboration anger / fear / constraint specialist gradually coming back? Can I clean the voltage to zero?

ANSWER: Muscle tension is most often formed because of the stress that had been in the past. For many people, there are muscle tension in the heart and genitals, associated with different tightness. Stressful emotions in the past are recorded in the level of the body and set it features raboty. Pri cleaning muscle tension, we primarily work with those stressful emotions, stress, which led to the formation of the current tensions.

Given in Body Map, "the number of stress lines" represent the number of groups stresses which led to the formation of the body voltage. Moreover, each line may include several stresses, which were repeated on the embodiment to embodiment sometimes amplifying. These voltage line we we clean, which leads to a weakening of muscle strain and is in fact his prichinoy. V the same time, it should be noted that such stress during the period of human evolution can count thousands. During one physical stress clearing cycle we remove the power voltage of up to 90%. When the signal reaches the level of less than 3.2 units, often it becomes irrelevant for humans. If desired, and continue cleaning, but may still remain some micro-signals both at cleaning complexes, and when cleaning bodily stresses

QUESTION: I am a girl, and you write that I have muscle tension in the prostate.

ANSWER: In this life, you're a girl, and in the past have an alternation of sex. Accordingly, there is no problem, but the following may occur in this life. Problems with the prostate gland is at 60% of men older than 50 years. Accordingly, if it is possible, it makes sense to adjust the settings to the ideal: to remove muscle tension and increase system availability. Bring it to a good level.

QUESTION: How many terminals centuries?

Voltage formed thousands or even millions of years? How many of this appeared in this life? How good is it to clean itself? In the afterlife?

ANSWER: The standard systems and terminals are formed in the first period of years of the occurrence of the Monad -First half a million years. Those. usually this chain more than a million years.

These are the options that are very stable, it is difficult to leave. If any voltage has stood for millions of years, just enough meditation, after death, for whatever reasons, these voltages are not removed. It requires special cleaning.

QUESTION: Muscle tension - ie it is in fact the work of the causes? For the future - to continue not to accumulate?

ANSWER: These chains are usually formed at the beginning of the evolutionary path, when the soul is only beginning to develop. If these chains away, in most cases, they are no longer there.

EXAMPLES cleansing. depth questions

Scoliosis

QUESTION: Muscle tension in the spine scoliosis affect whether and job agencies in the area where there is tension?

ANSWER: Of course, influenced. Residual muscle tension very much affect the work of the body. They are very thin body twist. Another thing is that this may not be enough. But in those cases, the last time we worked with a muscle strain on the spine - were visual changes for the better. Man has become smoother walk.

COMMENT: Cleaning spine / Irina muscular tensions

After I removed the spinal muscular stress a slouch I stopped and noticed that it has become smoother walk. It became apparent after about six months, taking into account the fact that I exercise regularly.

NOTE: There is extraterrestrial egregors that cause back pain.

Some of the problems associated with muscle strain (body map) and inclusion destruktivnye egregors. Egregors diagnosed in Map habits.

COMMENT TO CLEAN THE BODY OF EMOTSIOALNO-MUSCLE TENSION

Once, out of curiosity, I ordered a body map where noted tense areas of the body. Ironically, it is in these areas and I felt discomfort and other unpleasant sensations. The most problematic area was the spine, especially in the waist: already 20 tension units, of which 15 units. immediately brought one situation in childhood. As I then remembered it was caused by a fall down the back (legs raised up) with a horizontal bar, broke from a doorway, plus emotional trauma. whether the complaints were on low back pain? No, I did not complain, but often felt in her high tension in the etheric level. It seems to be moving the pelvis, the muscles all right, but I still felt a certain rigidity, stiffness (including emotional), and with the sacral chakra (Svadhithana) was something not right. In that field values for which it was responsible, I was not particularly happy. In short, a solid "inferiority complex" at this level. And then I decided to go to the center «EzoHata» and order yourself a favor by cleaning the body from the emotionally-muscle stress, choosing as the "target" the spine, especially the lower back.

Here are ordered first cycle and wait, when they say that is about to start work. It has been like a few days, I noticed unusual sensations in the sacral area, well, a solid "tickle". In addition, the spine quickly ran impulses, they almost reminded me to "stir" the Kundalini. It began activation svadhithana chakra. I think someone is needed to start me on some kind of intimate relationship there. Whatever it was, it was all great and very nice. This was repeated the next day on the third. Well, since I was not informed when they started to work with me, I'll find out myself. Answer me, work has already started and is still ongoing. Well, I said to myself, wow wow. Now every day can feel like at full capacity "shuruet" my SWADHISTAN. Sometimes even begins to distract my mind from work (of course I did not mind). Understand, long time so it did not work, and that's making up for lost time, I tell myself. Significantly subsided emotional shyness (no, it does not mean that I began to stick it to one or the other ... just started to feel more free), the muscles become, figuratively speaking, a "cotton" in the pelvis there was a certain lightness and mobility, these same qualities were reflected on my thoughts, emotions and behavior. Yes, in a single cycle (it lasted almost a week) was removed half of what they have accumulated over many years, and the results have made themselves felt from the first moment of the work with me. What do I mean? Your technology really work, and, besides, strongly. This is surprising and at the same time effectively. A huge thank you for your work! COMMENT: Cleaning muscle tension lines / Sergey

Appealed to the Center to periodic severe toothache in the upper jaw teeth hurt ... for no reason, go to the dentist, he said that the teeth are healthy ... In the center make a diagnosis and found that the teeth were voltage 9 units after it was removed pain disappeared))

COMMENT: Cleaning muscle tension / Igor /

I ordered cleaning stress on the eyes and genitals. On the eyes at some time I felt that I have been clear perception of the world brightened. But the vision has not changed much. Maybe because in the eyes of the Body in the map I had only 3 voltage unit. Genitals in the map I was 9 units, and some diseases are sometimes delayed. After a clean health status in this area has improved twice! Thank!)

Review: Shoe muscle stress / Marina

Good day. Bowel cleansing feel stress very well. Details of the report will not), but the improvement is clearly noticeable. Straight, even the man himself почувствовало. Po eyes until changes can not see. Now wear lenses, I would very much like to get rid of them. I hope I can soon.

Review: Shoe muscle stress.

Ordered remove 2 cycles with heart muscle stress was 15 units. Before that it was: a constant discomfort in the heart, it is enhanced by stress and emotions, it had an arrhythmia. Once changes are felt but after four months, I would say that I maintain easier exercise, discomfort ceased to feel heart palpitations and feel only at very strong emotions. Thank you from me. Recommend .

Review: Shoe muscle stress / Jaroslav

Hello) I present a review of the first cycle of the cleaning emotional and muscle tension "Shoulder belt vishudhas zone (above the collarbone)" .. Before cleaning often tormented me feeling at the base of the neck, similar to the "lump in the throat", and sometimes "loop gastric juice "(juice from worry when released into the stomach and causes a burning sensation), but in the" thyroid gland ". After cleaning a few days, I watched him. These symptoms since the cleaning will no longer appear. thank

Review: Shoe muscle stress

I stress to the heart muscle (10 units) were listed in the Map of the Body. After your diagnosis turned out to be checked up really have a problem :) previously had no problems with the heart :)

Review: 2nd cleaning cycle emotional muscle tension "spine" / Jaroslav

Before cleaning was one issue that drew attention, alas, only after cleaning. Every time he went to bed, I was unable to immediately relax and often had to toss and turn in bed to take a convenient and comfortable position, and thus to fall asleep quickly. And all this is due to the fact that one might feel that supposedly my back, or rather the waist, was the site of some "tough". When I ordered 2nd cleaning cycle the remaining 10 voltage units, from the first day as it finished, before going to sleep, my body easily and completely relaxed, and since then no longer complain about the rigidity of my loins, daily enjoying the "relaxed" sleep. thank 🙏.

Review: Shoe muscle stress chakra / Anton

Thanks, I feel better. During the day, there was a feeling like a little drunk, was tuned to Magma and slightly affliction. Now steady state. Total internal attitude has changed a bit more peace of mind, and like me on some music tuning fork lightly trimmed. I think it adds to the smoothness of relationships with people and become less experience. Thank you, we watch.

Review: Controlled Stress - psoriasis / Victor:

I had psoriasis. Large spots on the abdomen, feet, elbows, hands and head. It began after the strong emotions at the university. It lasted for about 30 years interfere with communication with people, especially with women. Greatly ashamed. The map habits 3 discovered initiation stimulating psoriasis. Removed. Spots decreased by 60%, but after the stress again obbrasalo. Thereafter removed residual muscle tension in Body Map which caused psoriasis. Thereafter psoriasis was 95% !!! It remains only a couple of small spots the size of a penny with!

Review: voltage adjustment -varikoz / Victoria:

Since you made me a dedication which contributes to varicose veins it has been a few weeks. What can I say, it was easier to walk, his legs ache less. Earlier in the evening we had tired legs, even if the whole day sitting at a desk, is now less tired. Further more it will be better, I hope so.

Review: Controlled Stress - Bath / Zoe:

He asked himself and his daughter to put the dedication of love to bath. The daughter used to be in the bath does not tighten so I myself did not like. Now regularly go 2 times a week.

HAIR ISSUES. Shoe muscle stress.

QUESTION: What are the results of relieve muscle tension in the area of hair growth? Someone has already ordered? If you remove, it can at least partially restore the hair growth?

A: After cleaning hair strengthening muscle stress. Clearly. This will stop hair loss is likely. But new does not grow. Or if you are growing, it is not suschestvenno. Po our observations, severe muscle tension in the region is

accompanied by bald hair. Almost always. And where there is no stress bald net. I just on sight. If there is muscle tension, visually impaired, people in school, more likely to be wearing glasses. If you remove the muscle tension in the eyes, vision is gradually beginning to recover.

To remove the main signals, we recommend to do 2 muscle tension of the cleaning cycle.

Gray hair and muscle tension

QUESTION: Tell me, if the gray hairs appear on the head. Besides age signals from the past something else influences?

ANSWER: First, the muscle tension is one of the main factors that affect the disbalansirovku corresponding organs and systems. When it comes to hair, it is possible to remove the muscle tension in the hair area. This will remove some of the stresses in this sfere. Vo Second, modern medicine directly connects graying with stress. The residual signals from the stresses, they can be removed. This will affect the overall psychological state (some of the stress go away) and slow down the process posedeniya. V Third, there Mandala "Strength Hair". It is a tonic for the hair. A lot of good reviews.

Muscle tension of the Higher Planes

QUESTION: I have one more question regards the stress coming from the higher planes. I'm curious to know the reason of their appearance and what they represent? How does appear to accumulate? About residual muscle tension all quite available painted, but about them nothing.

ANSWER: There are muscle tension coming from the Higher Planes. There is a hierarchical system. We are engaged in various egregors with their deities. They may have their muscular tensions, which even affect those beings who are under nimi.V map of the body, we test only the strongest global stress that can affect. Stress can be a hundred. But strong stress is usually just one.

THE NOTE:

Any muscle tension - it's own tension that accompany emotional stress. And after his death, they may constitute a system of thought-forms, which affect one or more subtle bodies. Emotional stress - they are the same type and make karmic chain. Accordingly, we obtain a chain of our own destructive thought forms that weaken the body in different places.

Similarly, any voltage coming from the Higher

Planes can affect our world and of a man who is in the area of these stresses.

Thus, we are testing the muscle tension in organs. And when we remove these voltages, thin body is usually straightened. This occurs for half a year or a year. This is a good technique to improve the body in this area. She does not act very quickly, but this is a very important process that affects health.
